THOLKAPPIYAN S.

Thanjavur, India • +91 9363225699 • sambathjayanthi3@gmail.com • linkedin.com/in/tholkappiyan-s • github.com/tholkappiyan-s

B.Tech Computer Science and Engineering (Data Science) student with a strong academic standing (**9.39 SGPA**). Passionate about Artificial Intelligence, full-stack software development, and intelligent automation. Experienced in building practical software platforms using Python, JavaScript, Next.js, React, PostgreSQL, and AI-agent workflows. Focused on engineering high-impact scalable solutions that address real-world business challenges.

EDUCATION

Takshashila University — Tamil Nadu, India | Expected Graduation: 2029
Bachelor of Technology (B.Tech) - Computer Science and Engineering (Data Science) — Semester Score: 9.39 / 10.0

PROJECTS

AI Business OS — AI-Powered Business Management Platform

Technologies: Next.js, React.js, Supabase, PostgreSQL, AI/LLM APIs, n8n

- Architected a centralized AI Business OS platform integrating core business management tools into a single ecosystem.
- Designed modular units covering Customer Relationship Management (CRM), financial ledgering, inventory control, and business analytics.
- Implemented AI-agent workflows for automated sales, marketing outreach, financial forecasting, and executive decision support.
- Integrated application frontend interfaces, database services, and modern LLM capabilities into a scalable system architecture.
- Streamlined manual repetitive operational tasks, significantly boosting efficiency and supporting data-driven decision-making.

NewsTrack — Newspaper Supply Chain & Distribution Tracking System

Technologies: FastAPI, React, JavaScript, PostgreSQL, WebSockets, REST APIs

- Engineered an end-to-end management platform for newspaper production, inventory dispatch, and end-route delivery tracking.
- Designed robust RESTful APIs to streamline distribution workflow, real-time inventory updates, and route progress monitoring.
- Constructed centralized dashboards for operational analytics, dispatch logging, and supply chain visibility.

TECHNICAL SKILLS

Programming Languages:	Python, C++, JavaScript, SQL, HTML5, CSS3
Frontend Development:	React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend & APIs:	REST APIs, Application Integration, Microservices Logic
Databases:	PostgreSQL, Supabase
AI & Automation:	Large Language Models (LLMs), AI Agents, Agentic Workflows, n8n
Tools & Platforms:	Git, GitHub, VS Code
Spoken Languages:	English, Tamil

ACHIEVEMENTS & INTERESTS

Achievements & Activities

- **Academic Excellence:** Maintained an outstanding 9.39 / 10.0 semester score.
- **Smart India Hackathon (SIH) 2026:** Active Participant.
- **Project Development:** Core contributor & architect of AI Business OS.

Areas of Interest

- Artificial Intelligence & Machine Learning
- AI Agents & Intelligent Automation
- Data Science & Analytics
- Full-Stack Web Development & Software Engineering
